

# Pro-Pain, Make Some Noise

Enter the zone - our mission: Achieving the goal  
We act alone - for reasons beyond our control  
Under the gun - our power of reason prevails  
Second to none - in whatever the mission entails

We're fighting a war  
For truth and never more  
The need to understand  
So do what you can and you will

Open your mind - for we are the yet to be seen  
Leave this behind for longing to say what you mean  
Death and despair of endless relentless decay  
Buyer beware - our choice is to live for today

We're fighting a war  
For truth and never more  
The need to understand  
So do what you can and you will  
Make some fucking noise
