

# Probot, Goodbye Lament

Say a prayer for me in my memory  
have a taste another one is through  
damn this place in me  
damn this destiny  
i will be the one who cries when you go

hello misery your the best of me  
hey someone got the best of you  
come and sleep with me for infinity  
we'll spend some time and find the rest of you

break down, breakdown willing in your head  
rain down, rain down, innocence is dead

Goodbye Lament, Goodbye Lament  
Goodbye faith I swear I won't believe

Pray for me, faded memory  
give me and i'll fade into you  
come and dance with me  
i will always be asleep in behind the eyes that I bleed through

break down, breakdown willing in your head  
rain down, rain down, innocence is dead

Goodbye Lament, Goodbye Lament,  
Goodbye faith I swear I won't believe

Goodbye Lament, Goodbye Lament,  
Goodbye faith I swear I won't believe

break down, break down, willing in your head  
rain down, rain down, innocence is dead

break down, break down, willing in your head  
rain down, rain down, innocense is dead

Goodbye Lament, Goodbye Lament  
Goodbye faith I swear I won't believe
