Procol Harum, Learn To Fly

(G.Brooker / K.Reid / M.Fisher)

You and me got a chance to make things right The writing... the writing's on the wall You and me got a chance to turn things 'round We got no time... the future's slipping through our hands

Learn to fly
Where eagles only dare to try
We're on the wing
We dare to win
We see the future and we're gonna make it
Learn to live
You know you got so much to give
It's in the air
it's everywhere
We got a vision and we're gonna claim it

You and me we can't turn back at all The die is cast... (you know) the deal is done you and me we knew this day would come And now it's here... the journey's just begun

Learn to fly
Where eagles only dare to try
We're on the wing
We dare to win
We see the future and we're gonna make it
Learn to live
You know you got so much to give
It's in the air
it's everywhere
We got a vision and we're gonna claim it
