

Prodigy, Baby's got a temper

You can see me coming from a mile off
Once again ignite the skyline
She's gonn be printed on money
Just like your royal family
(This ain't no holiday)
This time there can be no funeral
I'm vibing, can't you feel me?
We love rhyponol, she got rhyponol
We take rhyponol
Just forget it all
We love rhyponol, she got rhyponol
We take rhyponol
Just forget it all
Just forget it all
This baby's got a temper
This baby's got a temper
This baby's got a temper
You'll never tame her
You can see me do another parallel
Better bow down your not worthy
(Hey get off my planet, Yeah)
Last time I'll be your prisoner
No name no number
(revolving, dissolving)
Shooting through the trapdoor
What I think don't matter anymore
We love rhyponol, she got rhyponol
We take rhyponol
Just forget it all
We love rhyponol, she got rhyponol
We take rhyponol
Just forget it all
This baby's got a temper
Thi' baby's got a temper
This baby's got a temper
You'll never tame her
This baby's got a temper
You'll never tame her
