

# Progress, An Eye For An Eye

The violence that we see  
Inspires our youth to think that violence is the right way  
Our culture shows all the signs.  
Like the romans spiralling towards our demise.

(Chorus)  
An eye for an eye  
Makes the whole world blind.  
So we can't seem to see  
We subside to our own aggression

Mtv shows bread and play  
Making us forget that there are rules to obey.  
The guns and cash seem so easy  
Decent work seems like such a mockery

(Chorus)  
Tits and ass or on display  
To be like them is all we crave  
Childs eye filled with "pimps and ho's"  
And the fake tough guy style that it shows  
Mtv get off the air  
Has been said year after year  
Moral values simplified  
Responsibility has died

But nowadays the message is lost  
At the future generations cost

(Chorus)
