

Progress, Being An Asshole Never Goes Out Of S

As we grow to see the truth
that this scene just won't last
we have to embrace a wider point of view.
Foundations fall
as angels from the sky
leaving fear, distraught and ignorance
as easy answers
We can't claim to know what's right
as precedence tells us
life's too short to observe the lesson taught.
You saw this as the perfect way to raise your social status.
and cry now that we've seen the end.
For years they told me to shut up
And quit ranting about
the fact that ideals should remain.
And as you now just say goodbye
and become a memory
we'll forget anyway.
Was it worth it? Do you now feel your "pride"
Unable to cope as things pass by.
Your strength is a joke. Your unity a lie.
