

Project 86, 3 Card

I remember the day when the mojo ran away
You say you're here to back us going down that way
You're the one whose rapping on these cards of plenty
12 has come and none are ready
Your thumb is working on another victory
No telling officer
I've had my card

(Chorus)
Deep tricks and Tivo included
Just to tell them all I want to be an air force pilot
Roll it on and roll it on
And don't forget
Your treason for reason you haven't get

Lord had a dream, cash trip
OH NO!
Love is a word
Plus and you're all going up
We'll become quite and count alone
What's happened to the photograph you must have show?

(Second Chorus)
Deep tricks and Tivo included
Just that right now I want to be an air force pilot
Roll it on and roll it on
And don't forget
Your day jobs for midgets to let them jam

(Bridge)
Why help warning you?
I was warning you
To help warning you
WHAT ARE YOU DOING!

(Outro)
Deep tricks and Tivo included
And roll it on
Deep tricks and Tivo included
And roll it on
Deep tricks and Tivo included
And roll it on
