

Project 86, The Kane Mutiny

Verse 1

Enter emergency
You were once an ally to me
Now your cold war sinks with mutiny
Undermine, secure your eyes
I can see the plans in your eyes
You want the helm
For a mission of suicide

Pre Chorus

So far you've been able to
Have your way without a fight
Oh, it's long been overdue
You will not survive the night

Verse 2

Merciless and cancerous
And now I'm forced to put you to rest

(Pre Chorus)

Chorus

You're not gonna stop us tonight
No one's gonna take us alive
Your bed is watery
Sleep tight in what you've made
You're not gonna stop us tonight

Verse 3

Gotta move with attitude
This time we'll sail without you

(Pre Chorus)

(Chorus)

Bridge

One dies, one survives
One dies, one survives
One dies, one survives
One dies, one survives
So sad, once a trusted man
Now you've gone and forced my hand
So it's a watery grave, my friend
Your kind won't survive

Chorus

You're not gonna stop us tonight (One dies, one survives)
No one's gonna take us alive (One dies, one survives)
Your bed is watery
Sleep tight in what you've made
You're not gonna stop us tonight (One dies, one survives)
