

# Project Wyze, Tell The World My Name

This is the music I make  
This is the mic that I break  
This is the world that I shape  
This is my voice on your tape  
Seal your fate with one kiss  
Punish a man with one strike  
I promise never to miss I'm just a man with one bite  
I can't explain you can never change me  
I'm feeling trapped why can't this world appraise me?  
You cannot take me or replace me I'm one of a kind  
If I could live for one day I'd pray to god for some time  
I'm complicated  
It's a face off  
It's right to checkmate  
You see rhymes are my game and this game is too late  
Cause I don't want this watchin' death become your friend  
If you're livin' to die would you die to live again?

(chorus)...

Project, Project  
Time after Time  
If you look you will find behind the stars that shine  
Sayin', Project, Project  
Life is a game  
Now we playin' to win so tell the world my name  
Sayin', Project, Project  
Time after Time  
If you look you will find behind the stars that shine  
Sayin', Project, Project  
Life is a game  
Now we playin' to win so tell the world my name  
Sayin', Project, Project, Wyze

Throughout my so called life  
I've seen so many things  
I've seen MC's that can't rhyme  
I've seen bands that can't sing  
So I'm escaping my life  
Cause paradise is a stage  
This is the world that you made so let me out of this cage  
You're fighting a losing battle you won't last if we clash  
I've got your life in my palm watch it shatter like glass  
Disastrous  
I've mastered this  
Sky's the limit  
If this is your world then I don't wanna live in it  
I paralyze and punish I'm two steps beyond  
I'll spit the life from your body till your spirit is gone  
The storm has begun running high I just brought this  
No more the sun would you run from the darkness

(chorus)

Lyrics: Tell the world my name  
from the cd Only if I knew
