

Projecto, Death In Dreamland

This land is calling for help
To stop the insensate crime
We'll work to make a better time

Politicians seem so blond
Money! The only law!
Now it's time to make up their minds
Or to seize their throne

Fool who says "we live in good times"
Hell is too near even so far
Try to believe us
Dreamland must live!

We'll have to fight all together
To keep this planet alive
We'll have to shout it forever
"Let's strive!"

Respect the old mother nature
Whose laws are cruel and divine
But now we listen to her sad cry so loud

Your hear can't be so cold
Start singing a song of reborn
We know that you can listen
