

# Prong, Prime Cut

-This is the tab to the intro riff to "Persecution" by Prong as well as could get it.....

()=This means to just run pick over string at said position,  
Do not play note....

-Amp settings for closest sound:

I personally use a distortion box,  
with overdrive on...Without it I doubt  
whether the pick strokes can be heard....

-Lifes no fun without Dementia....
