

# Prong, Slicing

Never had a thought so how can you see me?  
A man without a mind can never judge evenly  
Forever passing judgment compared to a fraud  
I'll never pare up, I'll only distort your sight

Only distort your sight  
Only distort your sight  
Only distort your sight  
Only distort your sight

It don't matter, knife in your hand  
I'll cut you down with a knife in my head  
It don't matter, knife in my hand  
You can never mend it with a knife in your head

I want a slice, can I carve evenly?  
A man with no part moves so passively  
Can I cut you up, can I say you're a fraud?

I want a slice, can I carve evenly?  
A man with no part moves so passively  
Can I cut you up, can I say you're a fraud?  
You'll never pare up, I'll only destroy your size

Only destroy your size  
Only destroy your size  
Only destroy your size  
Only destroy your size
