

# Prophanity, Fate Of The Gods

(Music:Magnusson / Lyrics:Jarrebring)

Jormundgand lashes the ocean  
The sun is darkened  
Total devastation  
The fires roar  
And the stars falls from heaven  
Yggdrasil tremble  
And there is chaos

The master of the underworld  
Together with the chaos forces

Attacks the gods world  
Riding over Bifrost  
The bridge to Asgard  
Heimdall blows the Gjallarhorn  
The final battle  
Is all over us  
The forces meets to fight

The sun has died  
So has the stars  
The heaven bursts  
The earth is engulfed

The fate of the gods
