

Prophanity, Fate Of The Gods

(Music:Magnusson / Lyrics:Jarrebring)

Jormundgand lashes the ocean
The sun is darkened
Total devastation
The fires roar
And the stars falls from heaven
Yggdrasil tremble
And there is chaos

The master of the underworld
Together with the chaos forces

Attacks the gods world
Riding over Bifrost
The bridge to Asgard
Heimdall blows the Gjallarhorn
The final battle
Is all over us
The forces meets to fight

The sun has died
So has the stars
The heaven bursts
The earth is engulfed

The fate of the gods
