

Prophet Jones, Come Inside

Come on
Come on, Come on
Come on

Lets create a fantasy
One on one, just you and me
Don't want no candle light tonight
Wanna taste your lovin
So come a little close
And I'll make you feel so good
I'll make you feel so right

Girl I wanna come inside
Your body's callin me
I wanna lay you out
And get freaky

Girl I wanna come inside
Your body's callin me
When I lay you out
Then you freak me

I'll give you all you need
Make you lose control
Don't hold back, let your love flow free
Can I love you down

Sex you down
Hold you tight
Thru the night, baby
So you better lock the door
Throw away the key
Slide them panties down
Go all the way with me

Girl I wanna come inside
Your body's callin me
I wanna lay you out
And get freaky

Girl I wanna come inside
Your body's callin me
When I lay you out
Then you freak me

I can see that, that you want it
Stop playing get up on it (x4)

Girl I wanna come inside
Your body's callin me
I wanna lay you out
And get freaky
