

Protocol, Sorry

I'm not perfect, I'm not a saint
Done some things I wish that I could erase
I'm doing my best but still make mistakes
If I've hurt you then I'm sorry, its my disgrace

I know you cant hear me now
No longer are you listening
You'll have to wait to hear me out
Its not a case of lose or win

I'm sorry, so sorry
You cant help me now
I'm sorry, you got me
You found me out

I'm forgotten but forgiven I'm not
You said loyalty was something that i lost
You call me greedy, call me a fake
We ended something
Now we're left with this bad taste

I know that you cant hear me now
No longer are you listening
You'll have to wait to hear me out
Its not a case of lose or win

I'm sorry, so sorry
You cant help me now
I'm sorry, you got me
You found me out

Take another shot wont you
Tell me I'm the guilty one
I'm not looking for closure
Because whats done has been done

Take another shot wont you
Tell me I'm the guilty one
I'm not looking for closure
Because whats done has been done

I'm sorry, so sorry
You cant help me now
I'm sorry, you got me
you found me out

Take another shot wont you
Tell me I'm the guilty one
I'm not looking for closure
Because whats done has been done

Take another shot wont you
Tell me I'm the guilty one
I'm not looking for closure
Because whats done has been done
