

# Proximity, Painted Sorrows

I lost my cool again  
Don't know where to go from here  
Please try to help me out before I go without  
It's my biggest fear  
Empty alone my family is gone  
Yeah and the friends I once had have disappeared  
Gun in hand put the bullet in  
The shit goes down and the enemies dead  
They're all dead been dead for a while  
I've been high for a while  
Understand?  
Chorus: Do you understand?  
Do you understand my friend?  
Will you be my friend?  
Seems I've lost my way  
Yeah I've lost my sense
