

# Psapp, Sad Song

Everybody hates you, won't tell you why  
Letter from the doctor says you're going to die  
Cute little kittens drowned in a sack  
Everybody screaming, the sky turning black

I don't want to live no more  
I don't want to live no more  
I don't want to live no more  
I don't want to live no more

Peter just called to say he saw a slug eating a chip!

A flashing light never stops flashing when you're watching it flash  
A flashing light never stops flashing when you're watching it flash

We should drink less  
We should eat more  
We should go outside  
We should drink less  
We should eat more  
We should be living better lives

I don't want to live no more  
I don't want to live no more  
I don't want to live no more  
I don't want to live no more
