

Psapp, Tricycle

You know and I know
How we work and how we hope
We get all tied up

You made some magic
You didn't even try
Fell out of your eye
And I did to

You can't do it with one hand today
My fingers get in the way
I get all tied up

You know and I know
How we work and how we hope
We get all tied up

I drag my feet and drag your style
Don't want me around
Tie you up
