

# Psycho Realm, Earthquake Weather

It gets no better when you're caught up in the earthquake weather  
Keep your eye on the storm come and get us  
When the shit goes down we're all down 'cause we're fed up  
At how the system is set up

Breaking through my storm sick weather  
Psyclone stroll my zone come on enter  
Government punks think their world's a lot better  
But it's regular men that run the country forever  
Who got the power, the law, really?  
Never! thought I'd go to war with my city  
Carry out plans advance in the dark  
Tactics trace you with white chalk  
Crash hits and my troops get marked  
I'm in a danger zone when I walk  
Split seconds in time life become short  
Courtesy of la p.d psycho  
Inhaling white coke straight snort  
Life is a contact sport weather report

The sun will be smitten  
You understand what we're transmitting?  
Under the vanishing ozone  
Melting like a snow cone  
Listen before we come to not existing  
The new system  
Sets up the weather to splice us

Wipe the dust off mental vices  
Snipe devices in this age of crisis  
The price of being decisive is choking  
Welcome to no hope land  
Where two words can't be spoken  
That's prevent this  
So they're frozen like cryogenics  
In the driest of ice scaling global heights  
With hollow sights on scientists' heads like lice  
Who have patternized more than just mice  
Strike to kill the present but the present is this  
Try to fight a dead end that's sent through fists  
Mind computer list of motives  
Electric convulsive through the voltage  
Prime supreme truth cult  
Rhyme revolt  
Forecasting the act of action  
To flatten the state of defense  
Info prints static  
To unpulsate the black magic that breathes  
Believe in what we ourselves conceive  
For us it must and it will happen  
Destruction before creation the war of capping  
It gets no better when you're caught up in the earthquake weather  
Keep your eye on the storm come and get us  
When the shit goes down we're all down 'cause we're fed up  
At how the system is set up
