

Psycore, Pandemonium

inside-twister-sedate me-sister

sick of life and giving
inner annihilation
me and my existence
need a vacation

turn me off, i'm spinning, turn me off

brain rotating
world vibrating
mind in chaos
mental-floss

breakdown-expected-already-infected

suffer insomnia
sanity in slumber
life out of focus
dumbest, dumb, dumber

no rest at night
world in strobe-light
i've had enough
turn me off
