Puddle Of Mudd, Piss It All Away

What I feel it is real What I do it's the truth When I drink I can't think When I use I need more When you're weak I can't speak Close your eyes and taste this wine The cork removed less purified I throw away everything away that you say Erase everything that you fake What I feel it's a sin Tell the truth do not lie Make a wish it will come true One way streets one track mind Open up and see the light One million ways to hypnotize I throw away everything away that you say Erase everything that you fake Erase everything that you fake

Piss it piss it all away [x7]

Piss it piss it
