

# Puffy, All because of you

What the hell happened to me  
I've become such a mess  
I'm a walking disaster  
On a road full of stress  
You got all that you wanted  
You got a good part of me  
And I'm getting kind of dizzy  
from this crazy disease.  
So call me a doctor  
I need a repair  
I'm pushing my limits  
I'm pulling out my hair!  
And it's all because of you  
I just run into walls and trip over my shoes  
I get up  
I fall down  
Every time you come around  
I'm not cool  
It's all because of you  
It's all because of you  
You've got me spinning like a record  
That's already worn out  
And I'm kicking and I'm screaming  
And repeating myself  
I gotta hold myself together and not fall apart  
If it's gonna be forever, tell me where do I start  
So send me a signal up in the air  
You're pushing me buttons  
I'm pulling out me hair!  
And it's all because of you  
I just run into walls and trip over my shoes  
I get up  
I fall down  
Every time you come around  
I'm not cool  
It's all because of you  
I can't help it  
Can't stop it  
I know it's all your fault  
But I like it and you love me  
YEAH, YEAH, YEAH!  
And it's all because of you  
I just run into walls and trip over my shoes  
I get up  
I fall down  
Every time you come around  
I'm not cool  
It's all because of you  
And it's all because of you  
I just run into walls and trip over my shoes  
I get up  
I fall down  
Every time you come around  
I'm not cool  
It's all because of you  
It's all because of you
