==English Version==  
&lt;lyrics&gt;

back up off me baby cos you're dragging me down  
everybody knows that cheatin' ain't allowed  
seems to me you got a nervous twitch  
dont you know better honey which is which  
get your go baby power now

you acting so stupid and you looking so small  
crying at the window baby climbing up the wall

I am rubber and you are glue  
these evil tricks they gonna stick on you  
get your go baby power now

let me go let me go let me go let me go  
let me go pretty baby cos I'm full grown  
let me go let me go let me go do what I say  
I got to live my own life got to get my own way

I need go power now now now  
I need power I said no right now

I waited and I waited  
and all you've said is no  
better quit your crying Shakespeare  
cos now I got to go

I want go power now now now  
I need power right now right now

I'm leaving this town going to the big city  
oh honey you ain't seen how good I can pretty  
something better that's what is up  
now you know better never mess with my stuff  
got my go baby power now
