

Puffy AmiYumi, Grieving (Urei)

Such a muddy road
How far does it go ?
You not only get dirty
But the teachers directions were different
And the last train gets further
Rushing around and around and then stuck
It's still dark out
But the morning comes
Let's play until it's disgusting
Let's play in a world that has everything
Let's play before you let it go
Come and catch me here
Let's play

The view through a donut hole
Alone a curse
I don't seem to be trusted
Since I get jerked around
You don't notice that the rails are twisted
I'm not waiting for you
I'll leave now

Let's play the way I like to
Let's play and get sweaty
Let's play while you are alive
Come and catch me quick
Let's play
