We are pretty nice these days
Sorry but thanks
And keep it going, please
Picking up the best part of the fresh fruit
If you keep it that way, things will be nice

If someone feels anxious, doesn't mean we can't help
The way you live determines whether it works or not

When we're totally into things, that's the best
It's the proof of being alive
We saw a little bit of the world
Picking up the best part of the fresh fruit
Do it that way
From a different perspective
It's a very nice thing, too

I'm a little bit anxious, that's the way I live

We are pretty nice these days
Sorry but thanks
And keep it going
Still, nice things will start happening now

Watch me till the end
Don't get in my way
Picking up the best part of the fresh fruit
If you do it that way, things will be nice

Now goodbye !
