

# Pungent Stench, Pungent Stench

(by Schirenc)

rotting fetus in your womb  
your own body is his tomb  
mucous little brat  
drowned in clothing blood  
disgusting gastric juice  
drops out of your mother's vagina  
pungent stench of festered gore  
your pussy is a vicious sore  
worms in your entrails  
prey upon the melted embryo  
corroded brain and skin  
your son died for your sin  
too many drugs in pregnancy  
you killed your child but now it kills you  
titantic waves of bestial stench  
comes from your month it's the child's revenge  
bursting boils nauseous flood  
malformation and yellow blood  
now you can dig in your baby's guts  
tear the corpse out and look what you've done  
don't repent this mistake, now you get your punishment  
the little brat will rip you till the end
