

Puressence, A Different Sand

You may think I'm out of hand,
You may think I don't understand,
Because I walk in another world,
It's one I made up by myself,

You may think I'm underhand,
Don't you know I'm a special man,

I don't say yes,
I wish I didn't mean it,

Well come and take a walk into my world,
I'm here all by myself,
If you wanna come you don't need a reason,

You may think I'm underhand,
But on my beach there's a different sand,
Because I walk in another world,
It's one I made up by myself,

I don't say yes,
Well I feel that I don't really mean it,

Well come and take a walk into my world,
I'm here all by myself,
If you wanna come you don't need a reason,
Settle down this is my world,
I'm here all by myself,
When my kingdom comes you won't need a reason,

I used to think my world was over, (Take a walk into my world)
You smell that faceless take you over, (Take a walk into my world)
I bet you think my world is over, (Take a walk into my world)

Well come and take a walk into my world,
I'm here all by myself,
When my kingdom comes you won't need a reason,

Tell me it's all right,
Tell me it's all right,
Tell me it's all right,
Just say that it's all right,
Tell me it's all right,
Tell me it's all right,
Tell me it's all right,
Just say that it's all right,
Everything's all right,
Everything's all right,
Everything's all right,
If you say that it's all right.
