

# Puretone, Stuck In A Groove

stuck in stuck in stuck in stuck in  
groove groove groove groove

and i can't get out of it

stuck in stuck in stuck in stuck in  
groove groove groove groove

Don't call me a space-cadet  
I know your name  
but sometimes I manage to forget  
Maybe it seems like I'm far away  
looking at you  
I'm hearing much I have to say  
I know I get distracted sometimes  
and I'm always running late  
cause I get lost in my mind and ..  
I know it must seem rude  
but that's not an attitude  
Every day you tell me  
that my head's up in the clouds  
leave me alone cos I'm in the zone  
(and) I'm never gonna come back down

Because I'm stuck in a groove  
I didn't hear what you said  
Because there's to many tones  
going round in my head  
Well I  
the things I should do  
but I'm singin' instead  
Just being stuck in a groove  
that's going round in my head

There's no doubt that I am afflicted  
I'm totally obsessed and I will admit it  
Oh no I'm not high  
but I'm very much addicted  
to he music I like  
You could say it's my religion  
my love is not based  
on a rational decision  
So don't you take me for a fool  
cos I don't think like you  
All I want is to be left  
in my own company  
times fades away  
the night eats the day  
and the music sets me free

(Chorus)  
Because I'm stuck in a groove  
I didn't hear what you said  
Because there's to many tones  
going round in my head  
Well I  
the things I should do  
but I'm singing instead  
Just being stuck in a groove  
must going round in my head

\*..

(chorus)
