

Pursuit Of Happiness, Cigarette Dangles

Cigarette dangles makes me hard
Kidnap me, throw me in the back of your car
Take me to your room, where the flowers hang like bats
Poison me with liquor, then break out the party hats

Kiss me 'til you hurt me, then again until I'm numb
Burn holes in my neck with the venom of your tongue
Remind me again how lucky I am right now
Laugh at my body but then turn off the lights and put out

Cigarette dangles (I wanna ride the big wave)
Cigarette dangles (open up the bomb bay)
I wanna ride that wave (I wanna ride the big wave)
Cigarette dangles (open up the bomb bay)

Your cigarette dangles, my flesh is weak
Pedal to the metal, darlin', 'cause I'm about to peak
Now sit up straight, hook your legs through the rocking chair
I wanna find a new way to show you how I care

Cigarette dangles (I wanna ride the big wave)
Cigarette dangles (open up the bomb bay)
I wanna ride that wave (I wanna ride the big wave)
Cigarette dangles (open up the bomb bay)

Move your hair off your face, so I can find your lips
Want to taste pepper on your mouth and your fingertips
I hear the cat scratching at the door
You say, "I'll feed him later, get back on the floor"

Cigarette dangles (I wanna ride the big wave)
Cigarette dangles (open up the bomb bay)
I wanna ride that wave (I wanna ride the big wave)
Cigarette dangles (open up the bomb bay)
I wanna ride that wave (I wanna ride the big wave)
I wanna ride that wave (open up the bomb bay)
I wanna ride that wave (I wanna ride the big wave)
Cigarette dangles (open up the bomb bay)
