

Push Play, Away away

Look a little bit closer
Look a little bit closer at me now
The camera change through all the better bits away
Cuz we can change I'm ready for the next round
Away away away
You took my breath away
Spinning out
Promise you wouldn't leave me
Wouldn't regret that you took me back this time
Woah woah woah woah
Things are moving so fast
Don't think this will mess are minds
Cuz we can change I'm ready for the next round
Away away away
I took your breath away
Spinning out
Away away away
The time will take away our?
Hey now look out these things happen for a reason
Hey now look out something gotta break now
Hey now look out woah
Hey now look
Away away away
I take your breath away
Spinning out out out out out yeah
Away away away
I took you breath away
Spinning round spinning around
Away away away
I take your breath away
Spinning around
