

Push Play, Do it deadly

Another day
Another mistake
Waiting by the phone for hours
Not one call
Not even the heads up
Excuses that you make
Are so fake
Never in my life
Have I met a girl like you
Hopefully I'll never have to
Now girl you play the game
But I can keep it lasting
Cuz I can keep you begging
Just say please
You're crying on your knees
Girl you play the game
You played it good
But I can show you
Can't you see?
You're lying through your teeth
Another day
Another game played
What's your score now?
Too high to count
Do what's right
Or you'll get arrested
Everything about you is so invested
Never in my life
Have I met a girl like you
Hopefully I'll never have to
Now girl you play the game
But I can keep it lasting
Cuz I will keep you begging
Just say please
You're crying on your knees
Girl you play the game
You played it good
But I can show you
Can't you see?
You're lying through your teeth
Now girl you play the game
But I can keep it lasting
Cuz I will keep you begging
Just say please
You're crying on your knees
Girl you play the game
You played it good
But I can show you
Can't you see?
Now girl you play the game
You are lying through your teeth
Now girl
[Play the game]
Play the game
[Play the game]
You're lying through your teeth
