

# Pushmonkey, Carbomb

Wanna fight better Do it like a Brooklyn man  
with my carbomb I can fix everything  
Gonna call me a freak better make your stand  
I can solve it with a pipe and nitrogen

My best it rolls around in my head

Yes I some kind of freak  
I don care about you  
Yes I some kind of freak  
I don care what I do

You can test my carbomb out in your car  
turn the key and they won know who you are  
I a Detroit freak making you a man  
with my carbomb I can be everything

My best it rolls around in my head

Yes I some kind of freak  
I don care about you  
Yes I some kind of freak  
I don care what I do

Yes I some kind of freak  
with something to say  
I in some kind of hell  
And youe going to pay  
Now I stand in the street  
Excited and low  
You twist on the key  
I watch you explode  
Your life is a flame  
a beautiful shine  
I made you a freak  
I made you my kind  
Your flesh is like coal  
youe my kind of cool  
Youe my kind of freak  
It my kind of cruel  
Yes I some kind of freak

My best it rolls around in my head
