

Pushmonkey, No Dumb Wrong

No dumb wrong, I'm dumb wrong
Stick out your tongue Stick out your tongue
That's right
All the bruises
Come at once
Connect the dots of
The pretty ones
Take a beating
Get your switch
Can I reach up
Can you quit, Nope
Stick out your tongue
No dumb wrong, I'm dumb wrong
Stick out your tongue Stick out your tongue
That's right
Molder mind of a user
Our love is tied a bit looser
Lower I've got a soother
Scolder
Wise a little
Focus in
Read your mirror
Kill again
Whose the power
Whose the meat
Wa
sh your mouth out
Make them bleed Go On
Stick out your tongue
Mold a mind and abuse it
Power might have a loser
Slower I've got a soother
Glower
Stick out your tongue
That's right
I'm a derelict man with a black and white tan, got to get a 'lectric
window yellow
Cadillac man selling livers in a bucket through a Chico fan to make one
small tripper suck a
black and white tan gonna be 'lectric window yellow Cadillac...
No dumb wrong, I'm dumb wrong
Stick out your tongue Stick out your tongue
That's right
