

Pussycat Dolls, Lights, Camera, Action

(feat. New Kids on the Block)

[Donnie:] Hey girl, do you love me?

[Girl:] Yes

[Donnie:] Well, I wanna try something with you.

So, don't be shy. Are you ready?

[Girl:] Of course, baby

[Donnie:] Let's go

[Chorus: PCD]

You go hit the lights, I'll set up the camera

Let's get to the action

You go hit the lights, I'll set up the camera

Let's get to the action

I've been thinking about this for some time

I got a freaky temptation burnin' deep inside

You say the strip's already rolling

And the bedroom is the set

I hope you know your lines 'cause one take is all we get

[Chorus:]

You go hit the lights, I'll set up the camera

Let's get to the action

You go hit the lights, I'll set up the camera

Let's get to the action

[New Kids on the block:]

By the time this over, girl, I'm-a make you a star

You ready? (1, 2, 3, 4)

I'm the directing and producing

And you're the leading lady of my show

(You're the leading lady, baby)

No body double needed, cause I do all the stunts on my own

Believe that you can turn your phone off

But be quiet on the set

You better know your lines 'cause one take is all we get

[Chorus x2: PCD]

You go hit the lights, I'll set up the camera

Let's get to the action

You go hit the lights, I'll set up the camera

Let's get to the action

Click on rewind, go one more time

Playback our love on the wide screen

Baby, don't stop until I say cut

Keep me shine, keep it roll, let me rolling...
