

# Pussycat, Teenage Queenie

There were days I couldn't weep  
nights I couldn't sleep  
And ev'ry thing I did just turned out wrong  
Till there was you to dry my tears  
Whisper love-words in my ears and this is why  
I'm glad you came along.  
Now there's a smile to cheer me up when I'm lonely  
That I can call whenever I'm feeling down.  
Smile  
and you know that I'm only  
Longing for the minute you'll be around.  
Help me 'cause I'm trying to get over  
The way I thought of love many times before  
If ever you should go away and nobody else would be near.  
There's always a smile to remember that you were here.  
If I could fly I flew away to a bright blue summer-day  
Tryin' to share my love with you for evermore.  
Darling you made my life complete  
You're ev'ry thing I need  
I'll never be  
The same I was before.  
Now there's a smile to cheer me up when I'm lonely  
. . .
