

# Pyogenesis, I'm Coming

Deep black morning  
No easy way out of life  
The dead still callin'  
Soon I will arise

Just one step to the edge of the final match  
Doubts changin' my mind  
I'm a graveyard singer a slow death bringer  
A gambler, a liar,  
A still burning fire

I'm coming - yeah

Now is all over my throne is gone  
At the gallon I'm hanging right beside my son  
Tears of joy runnin' down my skin  
My soul is laughing, they'll never win

I'm coming - yeah

Blood red dawning  
Slowly passing by  
The wind is calling  
Just fly away

Just one step to the edge of the final match  
Doubts changin' my mind  
I'm a graveyard singer a slow death bringer  
A gambler, a liar,  
A still burning fire  
Fire

I'm coming - yeah

Here the shadows shining bright  
Once I'm gleaming in the night
