

# Pyogenesis, You And Your Band

[Music & Lyrics: Flo V. Schwarz]

When you're trying to be special  
And you play an instrument  
In your band  
And the goals you have get higher  
And you know you'll reach them all  
In your band  
And the kids at school they fool you  
Just because you love your band  
Love your band  
And one day, you can believe me  
They will tell they were a friend  
Of your band  
No no no. You and you band, you and you band  
No no no. You and you band, you and you band  
Two years later there's a contract  
Of a company that counts  
On you band  
Then you'll tour with one of your faves  
And they're friendly and respectfull  
To your band  
Now you will know that no longer  
people rate you as a person  
But your band  
At least now my friend, that's certain  
You will understand  
Other bands  
No no no. You and you band, you and you band  
No no no. You and you band, you and you band
