

# Q.F.X., Say You'll Be Mine

Say, Ah

If this was the last day on earth  
You know I'd be right there with you  
Right to the very end  
Boom boom boom oh say you will be mine  
Boom boom boom oh say you will be mine  
If this was the coldest day on earth  
You know I'd be right by your side  
Just to keep you warm and dry  
And if you were lost in space  
You know I'd be the first one  
To come and rescue you  
You know I want to share it all with you  
You know that no one else on earth will do  
I need you till the end of time  
So please say you'll be mine  
You know I want to share it all with you  
You know that no one else on earth will do  
I need you till the end of time  
So please say you'll be mine  
Please say you'll be mine  
If this was the last day on earth  
Right to the very end  
And if you were locked away  
You know I'd spend eternity  
Just try to set you free  
You know I want to share it all with you  
You know that no one else on earth will do  
I need you till the end of time  
So please say you'll be mine  
You know I want to share it all with you  
You know that no one else on earth will do  
I need you till the end of time  
So please say you'll be mine  
Please say you'll be mine  
Boom boom boom oh say you will be mine  
Boom boom boom oh say you will be mine  
Boom boom boom oh  
Boom boom boom oh  
You know I want to share it all with you  
You know that no one else on earth will do  
I need you till the end of time  
So please say you'll be mine  
You know I want to share it all with you  
You know that no one else on earth will do  
I need you till the end of time  
So please say you'll be mine  
Please say you'll be mine  
Boom boom boom oh say you will be mine  
Boom boom boom oh say you will be mine
