

Queen Adreena, Desert Lullaby

How did I get here,
What world is this

Looking at forever the ivory bones did speak,
I walked the path to nowhere found theres nothing underfeet,
Looking at forever this rivers running dry,
The desert thirst has done her worst,
She cursed my lullaby

How did I get here,
What world is this

The midnight sun burns holes in the soles of my feet,
I kneel before you I say fuck me baby,
Looking at forever I cling to every limb,
Please hold me tight for the dead of the night prefers my suffering

How did I get here,
What world is this
