

Queen Adreena, Pretty Like Drugs

The world is watching as I take my last breath,
The world is watching as I get undressed,
Cos I'm pretty like drugs,
The world is watching as my wings unfurl,
The world is watching the death of a girl,
Cos I'm pretty like drugs.

I load the gun,
The world is watching with a pregnant pause,
The world is watching as I fuck to applause,
The world is watching as I plant the last seed,
The world is watching me watching tv,
Cos I'm pretty like drugs.

I load the gun,
I wax and I wane,
Subject all my pain onto you baby,
Coz I'm pretty like drugs
