Queen Adreena, Pretty Like Drugs

The world is watching as I take my last breath, The world is watching as I get undressed, Cos I'm pretty like drugs, The world is watching as my wings unfurl, The world is watching the death of a girl, Cos I'm pretty like drugs.

I load the gun, The world is watching with a pregnant pause, The world is watching as I fuck to applause, The world is watching as I plant the last seed, The world is watching me watching tv, Cos I'm pretty like drugs.

I load the gun, I wax and I wane, Subject all my pain onto you baby, Coz I'm pretty like drugs
