

Queen Adreena, Sleepwalking

Trippy little popsicle code
Did I get it quite right?
Broken got broke
Was it good to smoke, I'm not sure
Was it good to sing?
Was it right to love?
Was it wrong, this turning that I took?
Does the song sound right?
Do I look alright?
I spent all night getting it right
So you would love me more
So you would love me more

Brave your indecision, girl
Run from your indecision, girl
Hide from your indecision, girl

Somnambulation up and down the road
I lay in the garden with the cats
And my how the grass did grow
I watch the clock till the day did stop
I pray for my lovers return
I spent all night getting it right
So you would love me more
So you would love me more
So you would love me more

Brave your indecision, girl
Burn for your indecision, girl
Blind from your indecision, girl

So you would love me more
So you would love me more
So you would love me more
So you would love me more
So you would love me more
