Queen, Keep Passing The Open Windows

(Mercury)

This is the only life for me Surround myself around my own fantasy You just gotta be strong and believe in yourself Forget all the sadness cause love is all you need.

Do you know what it's like to be alone in this world When you're down and out on your luck and you're a failure Wake up screaming in the middle of the night You think it's all been a waste of time It's been a bad year You start believing everything's gonna be alright Next minute you're down and you're flat on your back A brand new day is beginning Get that sunny feeling and you're on your way.

Just believe - just keep passing the open windows Just believe - just keep passing the open windows Do you know how it feels when you don't have a friend Without a job and no money to spend You're a stranger

All you think about is suicide
One of these days you're gonna lose the fight
You better keep out of danger - yeah
That same old feeling just keeps burning deep inside
You keep telling yourself it's gonna be the end
Oh get yourself together
Things are looking better everyday

Just believe - just keep passing the open windows Just believe - just keep passing the open windows.

This is the only life for me Surround myself around my own fantasy You just gotta be strong and believe in yourself Forget all the sadness cause love is all you need.

You just gotta be strong and believe in yourself Forget all the sadness cause love is all you need.

Love is all you need - baby - love is all you need.

Just believe - just keep passing the open windows.
