

# Queen + Paul Rodgers, Cosmos Rockin'

What planet is this, mmmh ?

Let there be rock 'n' roll.

It's a Saturday night and I'm home alone  
With the music on quiet I'm flying solo  
Then my feet start moving to the sound of the beat  
Put the music up loud hear it in the street  
Then the neighbours start banging on my front door  
Throw the door wide open saying what's your point  
Come on in let's rock this joint

We got the whole house rocking  
We got the whole house rocking  
We got the whole house rocking  
We got the whole house rocking  
We got the whole house rocking  
To the mighty power of rock 'n' roll

We dance out of the door, dance into the street  
And all the people are swaying to the musical beat  
We rock down the road and down to the town  
And all the people stare and smile and get down  
Then the police man is saying "stop this noise"  
But the beat takes over now he's one of the boys  
The beat's taken over now he's one of the boys

Come on down let's rock this town

We got the whole town rocking  
We got the whole town rocking  
We got the whole town rocking  
We got the whole town rocking  
We got the whole town rocking  
To the mighty power of rock 'n' roll

Let's go  
Let it roll  
Are you ready?  
Said are you ready?  
The cosmos rocks!

Across seven seas through the Panama,  
Now they're rockin' on beaches and they're rockin' in bars  
Don't ask me how and don't ask me why  
From Miami Beach down to old Bondi  
There's a rock 'n' roll fever in every place  
Next thing you know they'll be rockin' out in space

Come on down let's rock this place  
Come on down and...  
Sock it to me

We got the whole world rocking  
We got the whole world rocking  
We got the whole world rocking  
We got the whole world rocking  
We got the whole world rocking  
To the mighty mighty mighty power

We got the cosmos rocking (What do we got?)  
We got the cosmos rocking  
We got the universe rocking (What do we got?)  
We got the cosmos rocking

We got the cosmos rocking  
To the mighty power of rock 'n' roll
