Queen + Paul Rodgers, Surf's Up...School's Out

Surf's up, school's out I got a criminal urge to twist and shout

I've been searching my whole life through For some perfect dream imagined in my youth

Follow that dream Surf's up, school's out Surf's up, school's out

For a perfect life, find a perfect girl You gotta follow that dream to a perfect world I've been a searcher, an adventurer too This ride still runs, I wanna ride with you

This ride still runs, wanna ride with you

Follow that dream Surf's up, school's out Surf's up, school's out

In the town and the country We all lay and dreamed our dreams Then we found the world is tough And all is not quite what it seems Gotta take it by the horns Gotta seize your precious day Gotta follow your dream

Follow that dream Follow that dream Follow that dream Surf's up, school's out Follow that dream Surf's up, school's out Surf's up, school's out Surf's up, school's out Surf's up, school's out Follow that dream

Follow that dream
