

Queens Of The Stone Age, Ode to Clarissa

I knock on your door
I tiptoe on the floor
I hope your daddy aint home right now
He warned me once before
You know he warned me once before
I stay up late
So we can keep our date
I love that we dont get no sleep
So to your window I creep
You know he warned me once before
chorus:
Im the one your mamma told ya bout
Im the one your pappa told ya bout
Now youre in love
And why shouldnt you be
Im everything youll never be
You say dont leave
Baby, I cant wait
Next time, we share my second base
repeat chorus
