

# Queens Of The Stone Age, Queens Of The Stone

Medication for us all, it is a new way  
And we're gonna take it cause we love it  
Don't you know?  
Is this the dose you've been dreamin' of?  
A revelation from a gun  
Doesn't matter  
Overtaken, mine was yours, now overthrown  
Just copulation in a song  
I'm so contagious, can i come?  
In the new way  
All of us cast asides became what has become  
Medication for us all  
You think you know me, well you're wrong  
Doesn't matter  
All of us cast aside became what I've become
