

# Queens Of The Stone Age, This Lullaby

Where O where have you been my love?  
Where O where can you be?  
It's been so long, since the moon has gone.  
& O what a wreck you've made me.

Are you there over the ocean?  
Are you there, up in the sky?  
Until the return of my love  
This lullabye

My Hope is on the horizon  
Every face, it's your eyes i can see  
I plead, i pray through each night & day  
Our Embrace is only a dream.

& as sure as days come from moments  
Each hour becomes a life's time  
When she'd left, i'd only begun this lullabye
