

Quiet Riot, Inside You

All I ever get from you
Are attitudes and broken rules but...
I just wanna feel your love beside me

A new day is gonna come
Together to sing my song
Got to feel the melody inside you

I wanna be, I wanna be inside you
I wanna feel, I wanna feel inside you

Love's fire burnin' in my brain
Love's fire gonna drive me insane
I wanna be, I wanna be inside you

Since your flowing through my veins
I ain't never felt the same
Feels like a whole new world inside me

I'm never gonna let you go
Gotta let your feelings show
Never, never leave the love inside you

I wanna be, I wanna be inside you
I wanna feel, I wanna feel inside you

Love's fire burnin' in my brain
Love's fire gonna drive me insane
I wanna be, I wanna be inside you

Nothing could ever take you away from me
No one would ever take me (yeah yeah) inside of you

I wanna be, I wanna be inside you
I wanna feel, I wanna feel inside you

I wanna be inside you
I wanna be inside you
I wanna be inside you
I wanna be inside you
I wanna be inside you
